

SUSTAINABILITY POLICY – NESTOR HOTEL

Last Modified: April 2nd, 2019

The 21st century has brought progress and growth in many areas and has affected amongst others our society, knowledge, technology, trade. However, despite the great progress mankind is confronted with serious threats and the environmental load is highly accelerated. We, management and staff of the Nestor Hotel being sensitive to the needs of our planet are committed to manage our impact on the environment as well as engage our guests, suppliers and other collaborators.

To this end we act so as to conserve natural resources, monitor and minimize energy consumption and use energy efficient and environmental friendly technologies to include renewable energy sources, minimize waste through Reducing, Reusing and Recycling, prefer local products thus help local community and at the same time minimize CO2 emissions from transportation. All of our actions are governed through proper environmental training for all employees at all levels as well as through management programmes in which our sustainability goals and means to succeed are included.

Additionally, through regular management reviews and the appointment of an environmental officer we monitor our performance, identify opportunities for further improvement and revise/set new targets while at the same time we ensure conformance with any related to environmental issues national and European legislation.

In accordance with the above, both management and staff act so as to ensure and maintain a safe and healthy work environment free from occupational accidents and illnesses for all guests, employees, suppliers, collaborators and any third parties that may be affected by our operations. Everyone at the Nestor Hotel maintains the highest working standards as per the policy of our company, approved codes of practice, ethical virtues and everyone treats and is being treated the same, regardless of nationality, religion, color, sex, political affiliation, physical or mental ability.

We are proud for our working conditions and the protection of human rights through conformance with the national and European legislative requirements and at the same time engage with local people and local businesses to support the local community and economy as well as our culture and civilization. To this end a community report with all our actions will be prepared and communicated as of 2017 on a yearly basis whereas at the same time we will be raising awareness and encouraging more people as well as organizations to support our activities and follow our example.

Above apply to all parts of our business and business activities and we are all working towards the same goal for the continuance and future of our planet and the generations to come, whereas at the same time we ensure qualitative and of high standards services to our guests being customer oriented and seeking continuous improvement.
